

## UNIVERSITE COTE D'AZUR offers you mobility opportunities

Université Côte d'Azur (UniCA) aims to develop its collaboration with the Universidad Católica de Chile. The Formal, Physical and Engineering Sciences Graduate School also known as SPECTRUM is offering grants for stays between January 2025 and December 2025 to lecturers, post-docs and PhD students from the Universidad Católica de Chile with recognized expertise in mathematics, physics, chemistry, astrophysics and/or Earth sciences (B2 level of English required).

### NUMBER OF GRANTS OFFERED AND DURATION

- 2 stays of 2 months each for doctoral students
- 1 visit of 12 days for teaching or training/observation activities for teacher-researchers and scientific engineers.

### How to apply

To apply, send your application documents written in English, in a single PDF file named "lacadolica\_applicant's last name\_applicant's first name\_french host lab", to the following email address: [eur-spectrum.aap@univ-cotedazur.fr](mailto:eur-spectrum.aap@univ-cotedazur.fr).

The documents listed below are required:

- A Curriculum Vitae
- A letter of motivation setting out your professional project
- (Attached) an evaluation form to be completed by your superior
- A letter of recommendation from your host laboratory team

In addition, in the case of a doctoral stay:

- A master's transcript showing your ranking

Applications must be submitted as and when required but at least 3 months before departure.

Grant recipients will be selected by the SPECTRUM Graduate School committee. Various sessions will be organized:

- 1) Deadline: October 15, 2024. Results communicated no later than November 15, 2024.  
Mobility between January 2025 and August 2025.
- 2) Deadline: May 15, 2025. Result communicated no later than June 15, 2025.  
Mobility between September 2025 and December 2025.

Applications will be assessed on the basis of the candidate's profile and skills, as well as the proven prospects offered by the project in terms of long-term collaboration between the two universities (added value provided by this stay in terms of sharing know-how, interdisciplinarity or future prospects - future post-doctorate, student exchange, etc.).

#### Funding

Mobility grant for PhD: 850€ per month

Subsistence allowance for staff: 160€ per day

Round-trip travel package for all participants: 1500€
